DEPARTMENT OF ZOOLOGY

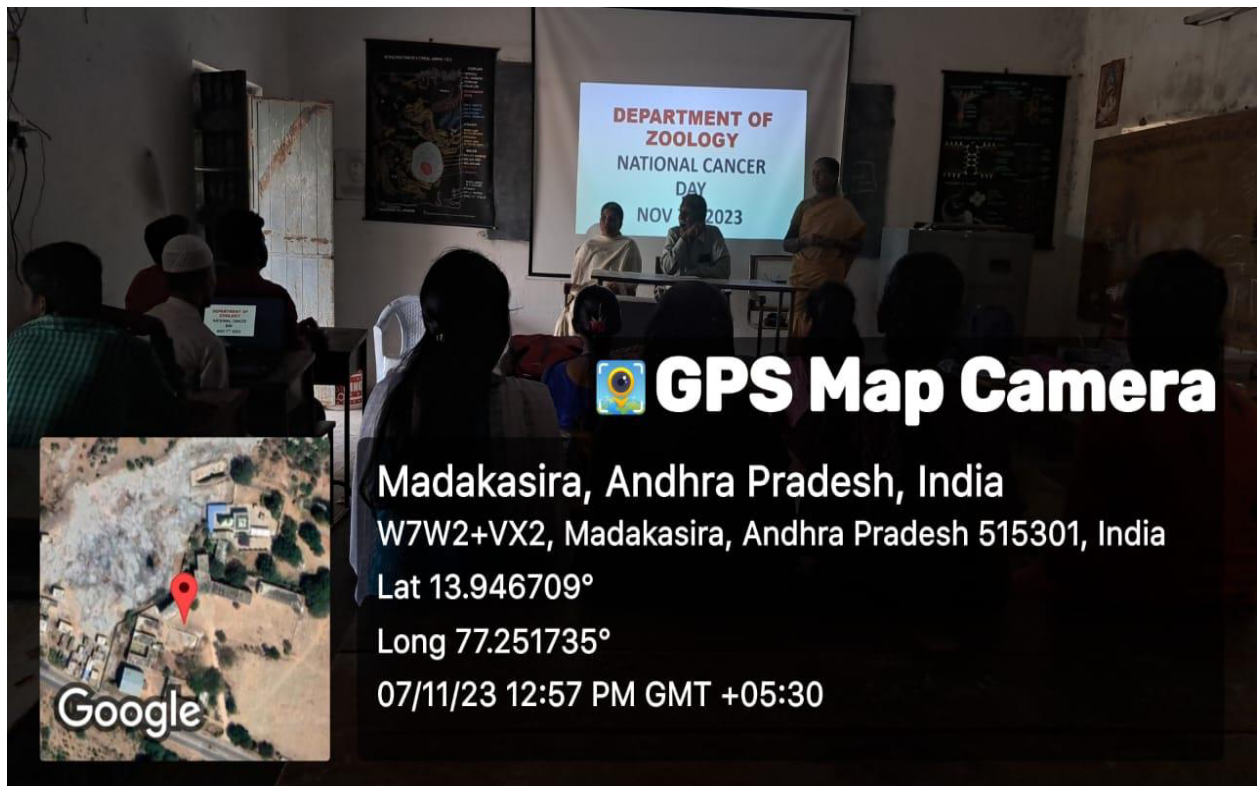

ACTIVITIES FOR THE MONTH OF NOVEMBER 2023

NATIONAL CANCER DAY

Objective : To Create awareness on cancer to help students understand the importance of spotting cancer early and the screening programmes.

Summary : Spotting cancer early means treatment is more likely to be successful. This often means a better chance for a cure, especially when the disease has still not spread to other parts of the body. A good example of the importance of finding cancer early is breast cancer. You can reduce your risk of getting cancer by making healthy choices like keeping a healthy weight, avoiding tobacco, limiting the amount of alcohol you drink, and protecting your skin.

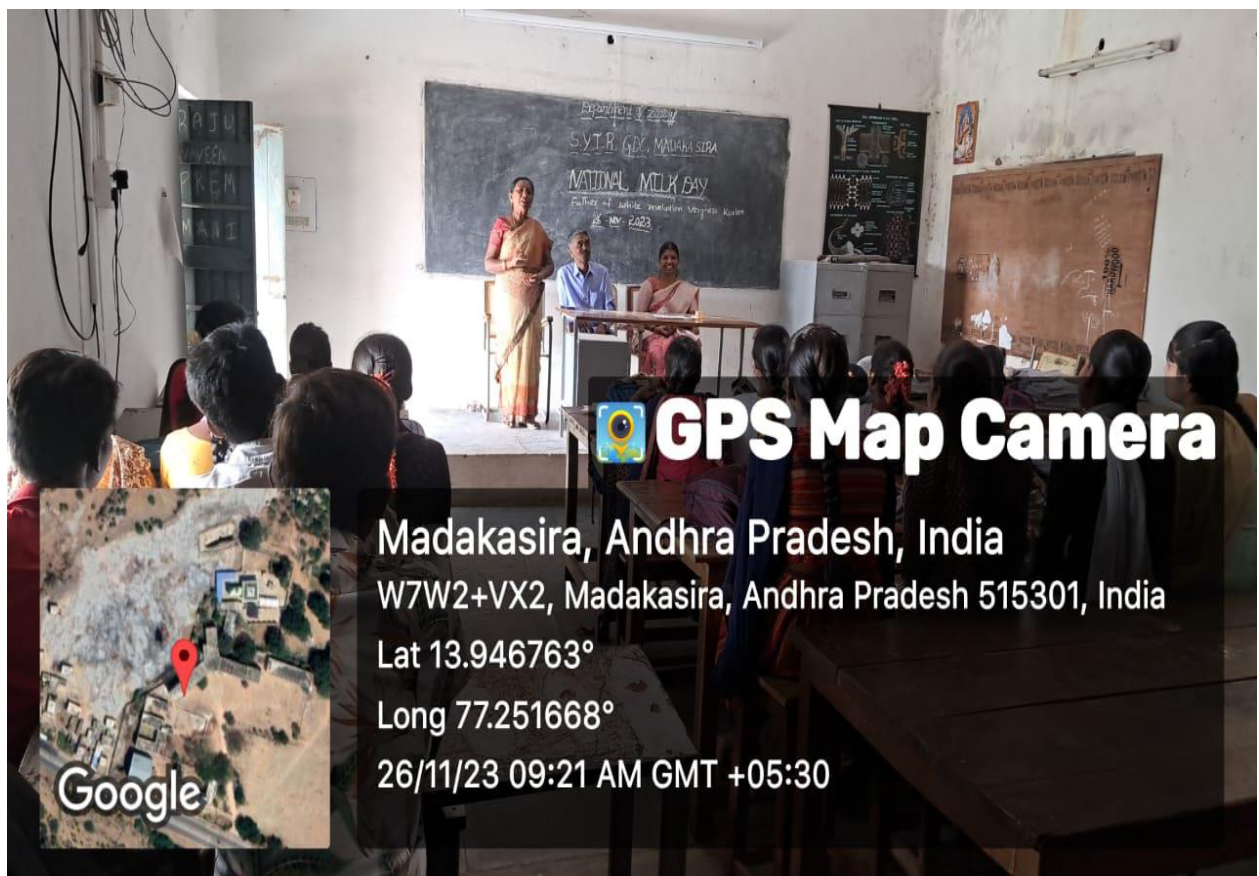

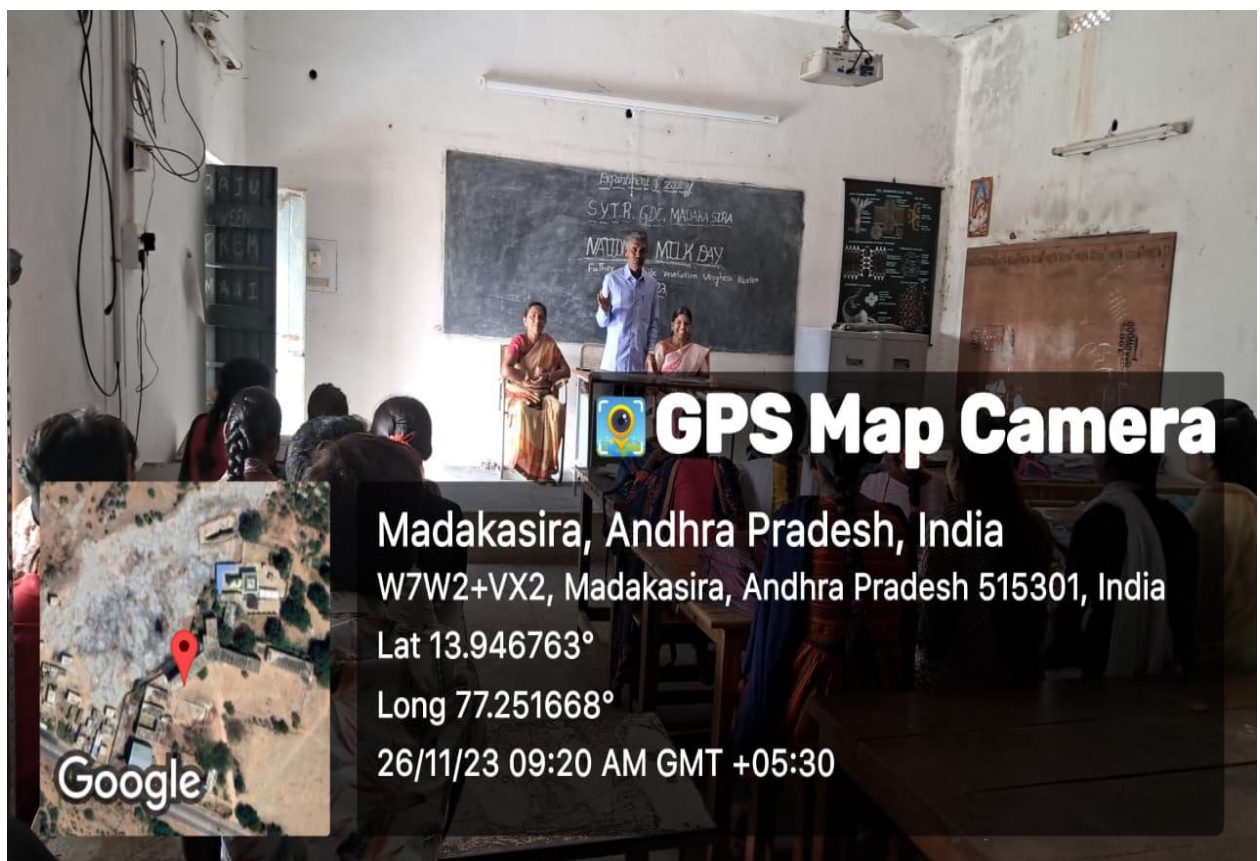

NATIONAL MILK DAY:

Objective : To create The importance of milk in our diet and the economy of the country is huge. The day commemorates the birth anniversary of Dr. Verghese Kurien and also creates awareness about the significance of milk in our lives.

Summary : The goal of World Milk Day is to raise consumer awareness of the health advantages of drinking milk. Sustainable practices are used in the dairy industry to lower greenhouse gas emissions, improve animal welfare, and more. Its primary objective was to make India self-sufficient in milk production by empowering dairy farmers and establishing a robust cooperative system.
